16th Gene Key

Miracle Siddhi: Mastery

Gift: Versatility

Shadow: Indifference

Shadow: Indifference

At the shadow frequency one of the most powerful and pervasive forces that keeps you from perceiving a higher reality is indifference.

As long as you are *indifferent*, you can never be *different*.

This is the key to the 16th Shadow, which concerns the very human fear of leaving your comfort zone and fully embracing change in your life.

Shadow: Indifference

One of the primary excuses human beings use for not doing what they truly want in life is the excuse that they don't have enough time.

Time itself is as fluid as water, and can be bent, shortened, twisted, lengthened, and even stopped. The moment you take a stand and begin to follow your dreams, time becomes your ally rather than your enemy, automatically adapting itself to fit your needs.

Shadow: Indifference

The other major excuse of those under the spell of this Shadow is “I’m not ready yet!”

Again, this excuse is based on a false notion of time. The truth is you are always ready. You are ready right now. If you keep postponing your dreams, they will always remain dreams. If you actually have the courage to begin them, you will learn as you go along.

Shadow: Indifference

The 16th Shadow puts all its emphasis on skills, techniques and systems rather than on the human spirit that enlivens them.

These people can become addicted to information and techniques.

p113

Shadow: Indifference

Your enthusiasm has the power to overcome the mass propaganda telling you that your dreams are impossible, and your courage is the sword protecting you from individual pressure that threatens to choke you.

With this newfound courage you can finally stand as a fully embodied human presence.

There is a deep entrepreneurial spirit here in this genetic codon.

p113

Gift: Versatility

The Gift level of frequency is an energy field that you *enter into*, rather than being defined by a particular set of skills.

In the original Chinese I Ching, this 16th hexagram was related to the arts—to music, art, and dance.

p115

Gift: Versatility

The Gift level is the level that we refer to as genius and the nature of genius is versatility. One has the ability to understand an energy signature that pervades all creation.

Gift: Versatility

The 16th Gene Key forms part of the Ring of Prosperity, and along with the 45th Gene Key – which is about group synergy– this chemical combination is the master-program in your body for activating true prosperity.

True prosperity is brought about by people following their genius whilst working together collectively.

16th Gene Key

Miracle Siddhis: Mastery

Just as the DNA in every cell of your body contains the blueprints for all life, so the 16th Siddhi activates the blueprints of *mastery* of all human fields of endeavor.

Miracle Siddhis: Mastery

The word enthusiasm derives from the Latin and Greek meaning to be posed by the breath of the Goddess. As the Divine currents flood human beings, shattering their identification with the world of form,

so, the Goddess has her play through us and one of the forms of play is to display *mastery over creation.*

*Magically
synchronizing with
mastery skills as a
true alchemist.*

What is mastery?

Mastery is the ability to blend skills and knowledge in a specific area of practice – a profession, trade, athletics, science or the arts. Mastery is practice not knowledge alone. Mastery of any field takes instruction, practice, stamina, setbacks, and intentionality. After years of practice, one knows exactly when and how to swing a bat to get a homerun; read a P&L to get at the subtleties of an organization; recognize students' needs and instantly redesign a presentation; or hear a certain sound and know a machine is about to malfunction. (Mastery Works)

Create in a rhythmic dance alignment with the elemental forces.

“Almost without exception, those we know as masters are dedicated to the fundamentals of their calling. They are zealots of practice, connoisseurs of the small, incremental step. At the same time – and here’s the paradox – these people are precisely the ones who are likely to challenge previous limits, to take risks for the sake of higher performance, and seen to become obsessive at times in that pursuit. Clearly, for them the key is not either/or, it’s both/and.”

....George Leonard (Mastery Works)

Clarity...

In order to be a Master, you must be crystal clear on your mission and vision...

You must know what your Source Light Task is.

This may not be a profession or business. It could be love, or healing, or bringing wisdom.

All of you are Masters or you would not be in this class.

“Here, we undergo a type of rebirth, resulting from the deep willingness to let go of all elements of [ourselves] that no longer serve our spiritual evolution. This marks the true beginning of inner initiation, of entry into a ‘higher’ life in which our destiny has a chance to unfold.”

A photograph of a sunset over the ocean. The sun is a bright, glowing orb in the upper center of the frame, casting a shimmering path of light across the water's surface. The sky is a deep orange, and the ocean is dark with white-capped waves. The foreground shows a dark, sandy beach.
